### Grindline to build skate park under the Zakim Bridge

Grindline to build skate park under the Zakim Bridge. "Based in Washington, Grindline has a reputation for world-class skateparks and is well-known in the skater community. They have built parks in more than 30 states and are looking to expand worldwide." "The 40,000 sq foot park will be half-transition and half-streetscape elements, and will be the largest park Grindline has built."

The setting of the park looks to be pretty spectacular:
